GLOBAL HEALTH AND HEALTH EQUITY FORUM
Taking Action on Violence
Through Research, Policy and Practice

Wednesday, April 30, 2014
8:30 a.m. to 1:00 p.m.

The Forum focuses on addressing violence through research, policy and practice. Presentations and round table discussions will address a range of topics including structural determinants of violence, gender related issues, community resilience, and prevention strategies that promote local and global health.

Keynote speakers:

- **Patricia O'Campo**, Director, Centre for Research on Inner City Health, St. Michael's Hospital
  Harder than rocket science: Designing effective violence interventions
- **Aysan Se'ver**, Professor Emeritus, Department of Sociology, University of Toronto
  Taking action on violence, locally and globally

Presentations:

- **Annette Bailey**, Assistant Professor, Ryerson University
  Surviving gun violence: International-based evidence for policy recommendations
- **Janice Du Mont**, Scientist, Women's College Research Institute
  Violence against women research: An overview of the global evidence
- **Josephine P. Wong,** Associate Professor, Ryerson University
  Structural violence and men's health

Roundtables:

You are invited to participate in one of the following five roundtables on violence at the forum focusing on: **children, youth, women, men and older adults.** *Please indicate your 1st and 2nd choice when you register.*
