5. Report of the Executive and Planning Committee

On behalf of the Executive and Planning Committee, Professor M. Morrow noted that processes to fill vacancies on Standing Committees of Council were underway in Schools/Department. Members were encouraged to connect with their nominating committee for additional information.

The Executive and Planning Committee was established as summer authority for the Faculty of Health Council and will report back to Council in the Fall on any actions taken under that authority.

The report that was provided offered three possible options for the Global Health program: (1) status quo (2) align the program within an existing Faculty of Health unit and (3) the creation of a new school of Global Health.

Dean McDonald explained to Council members that the intent behind the original motion put forward in the Executive and Planning report had changed. He stated that rather than voting on the motion provided in the Executive and Planning Report, Faculty Council would be voting instead to consider the options available and to proceed with that process.

Professor M. Morrow motioned, seconded by Professor B. Pilkington, to approve in principle, the formal process leading to a proposal to establish a School of Global Health in the Faculty of Health.

6. Report of the Curriculum Committee

Professor S. Murtha provided a presentation on the proposed Neuroscience Degree. As the external reviewer's report was not available in time for Council, she provided an email from the reviewer that stated that he could not see any concerns to fully supporting the creation of the program.
